METTLER TOLEDO acquires Triton Technology Limited

METTLER TOLEDO is a global manufacturer and marketer of precision instruments for use in laboratory, industrial and food retailing applications. The Company has strong worldwide leadership positions. A significant majority of instrument sales are in segments in which we are the global leader. In addition to a broad product offering, we have one of the largest global sales and service organizations among precision instrument companies.

Thermal analysis has played an important role in METTLER TOLEDO since the early 1960s. Since the beginning, we have offered customers innovative thermal analysis solutions, products and services. Our dedicated worldwide team of highly qualified sales and service engineers are ready to assist you.

Mettler-Toledo AG acquired Triton Technology Limited on March 11, 2011. METTLER TOLEDO will focus on developing and integrating the TT DMA technology, and will be responsible for all activities relating to TT DMA instruments including sales and service.

Certain other products (including identiPol QA and Humidity generators and controllers) were transferred to Lacerta Technology Limited. Lacerta is responsible for these and other former Triton products.

In case of any questions please do not hesitate to contact METTLER TOLEDO at triton@mt.com.
